

Rabies Reminders

1. Have your pets vaccinated against rabies.

A rabies vaccination shot will help protect your dog, cat or ferret from rabies. Make sure your pets stay up to date on their vaccination shots.

2. Do not go near wild animals.

Raccoons, skunks, foxes, bats and other wild animals may be infected with rabies and should not be touched.

3. Stay away from stray animals.

Cats and dogs that roam outdoors are more likely to be infected with rabies and may bite you. Do not try to feed or pet them.

4. Make sure that your home and yard do not attract wild animals.

Keep garbage cans tightly covered. Do not leave pet food outdoors. Cap chimneys and seal places where animals can get in and hide.

5. If you are scratched or bitten by an animal...

- Wash the wound with lots of soap and water.
- TELL AN ADULT and have them call your doctor right away.

To report a wild or stray animal in your neighborhood,
 Call Animal Control at
 732-873-2500, ext. 255 (during business hours)
 or
 Franklin Township Police Department
 732-873-2300 (evenings and weekends)
