

## Water Meter Application Instruction page

Applicant who applies for water meter should fill out the Water Meter Application Form. Water meter is required for every water service in Franklin Township Water (FTW), except for the fire services. Water meter will be read quarterly and it is used to determine the quarterly water service charge for the customers.

The applicant should clearly print the property owner's mailing address, service location address with Block and Lot number(s).

The applicant should also indicate the size and the type of water meter that is most suitable for his/her application. The applicant shall consult his/her engineer or plumber for the selection of meter size and meter type. Next, the quantity of meter requested should be provided.
